

AIRBLAST

SUCTION/DISCHARGE HOSE

Heavy duty polyurethane

Airblast range of Suction and Discharge Hoses comprises of the highest quality hoses manufactured and gives you the optimum combination of durability, cost and safety.

Polyurethane hose for air, dust, gasses, smoke, chemical gasses, powders, pulverized products glass- or rockwool. Flexible and kink proof, abrasion resistant. When bended the hose stays full bore as the PU material is forced to the outside, creating a full flow without obstruction.

Specifications

Norm : EU 10/2011 Cat. E
Temperature range : -25°C / +85°C
Tube : Transparent Polyurethane smooth inside crushproof PVC spiral, corrugated cover
Bending radius : 1 x inside diameter

Airblast offers a full selection of suction and discharge hoses as well as other hoses used in blast cleaning and paint spraying operation – contact Airblast to discuss which hose is most suitable for your specific application.

Polyurethane Suction/Discharge Hoses

Part no.	Description	ID in mm	OD in mm	Vacuum bar	PU-wall in mm	Available lengths in mtr.
2518300	Suction/Discharge Hose 51 x 59	51	59	0,3	0,7	20
2518400	Suction/Discharge Hose 63 x 71	63	71	0,3	0,7	20
2518500	Suction/Discharge Hose 76 x 85	76	85	0,3	0,7	20
2518600	Suction/Discharge Hose 102 x 112	102	112	0,3	0,8	20
2518700	Suction/Discharge Hose 127 x 139	127	139	0,3	0,8	20
2518800	Suction/Discharge Hose 152 x 165	152	165	0,2	0,8	20
